CARPENTRY

What?

Carpenters and joiners make and install wooden structures, fixtures and fittings, which are used in a wide variety of construction projects. This could include fitting floorboards, skirting, window frames and doors in domestic households. Jobs could include fixing roof trusses and partitions for a commercial project, preparing shop fronts, storage and shelving for retail outlets through to building wooden casements to support setting concrete in structures such as bridges or foundation pillars. Site Carpenters usually work on outdoor projects and Bench Joiners usually work in workshops. The **Site Carpentry and Bench Joinery Apprenticeship** and **Advanced Apprenticeships** are delivered by Moulton College in partnership with your employer. They are ideal if you'd like practical, 'on the job training' to further your career within the construction industry.

How?

You will attend college on a day release basis, for one day a week and spend the other four in the workplace. You will build a portfolio of evidence gained from the workplace and receive on-site assessment visits. To support you and your employer throughout your apprenticeship you will be assigned a Training Adviser, who is there to provide information, advice and guidance.

When?

There are Initial Training Periods at regular intervals throughout the year and you can start at any one of these. Before you start it will be agreed how long it should take you to achieve the qualification, but you can achieve the qualification sooner if you make sufficient progress.

Carpentry

CARPENTRY APPRENTICESHIP

Where will it take me?

Many of our Advanced Apprentices have gone on to form very successful businesses with the skills they have acquired and others have moved into supervisory positions. You could also consider applying to complete a Foundation Degree in Construction Management.

The **Apprenticeship in Site Carpentry or Bench Joinery** is ideal for employees who are at the beginning of their career and would like to gain a good grounding in all aspects of the carpentry trade.

- Level 2 Diploma in Site Carpentry or Bench Joinery
- Level 2 NVQ Diploma in Wood Occupations
- Level 1 Functional skill in Mathematics
- Level 1 Functional skill in English
- Employment Rights and Responsibilities
- Construction-Skills Certification Scheme (CSCS) test.

The **Advanced Apprenticeship in Site Carpentry or Bench Joinery** is ideal for employees who are experienced in the construction environment and wish to pursue a supervisory role or perhaps set up their own business.

- Level 3 Diploma in Site Carpentry or Bench Joinery
- Level 3 NVQ Diploma in Wood Occupations
- Level 2 Functional skill in Mathematics
- Level 2 Functional skill in English
- Employment Rights and Responsibilities
- Construction-Skills Certification Scheme (CSCS) test.

Interested?

There are no formal entry requirements other than that you must be employed within the construction industry and can gain the evidence required. You must demonstrate a commitment and enthusiasm towards your chosen apprenticeship.

If you would like to find out more please contact the **Apprenticeship Office** on **01604 491131**, email apprenticeships@moulton.ac.uk or visit www.moulton.ac.uk
