

Apprenticeships in Plumbing and Heating

Apprenticeships allow you to combine work with college-based training and result in the achievement of a range of qualifications. Abingdon and Witney College apprenticeships delivered on the Moulton College campus, offer an Intermediate and an Advanced Apprenticeship in Plumbing and Heating.

Intermediate Apprenticeship

Our Intermediate Apprenticeship in Plumbing is suitable for new entrants into the industry who have secured employment as a plumber. The training provided will allow learners to develop basic competencies in the installation and maintenance of domestic hot water, cold water, sanitation, drainage, rainwater systems, central heating systems and components.

Advanced Apprenticeship

Our Advanced Apprenticeship in Domestic Plumbing and Heating is suitable for candidates who want to progress their career within the mechanical engineering services sector and wish to progress as a qualified plumber or heating engineer. There are two available pathways covering either gas training or renewable energy.

Apprenticeship requirements

To complete your apprenticeship, you will also need to achieve English and maths, if you haven't already achieved a C (new level 4) or above at GCSE. You will also complete wider skills development relating to professional behaviours which will support you in your chosen career.

Well equipped to deliver training in Plumbing and Heating:

- Industry-experienced lecturers
- Well-equipped workshops including provision for bench work, assessment and practice bays for the installation of radiators, cloakrooms and bathrooms, and renewable technologies
- Gas Assessment Centre
- Industry standard tools and equipment
- Modern classrooms equipped with the latest technology

APPRENTICESHIPS

Apprenticeships benefit the apprentice and the business they work for. Apprentices not only gain a job but also benefit from bespoke training and businesses are able to take on additional contracts, bring new skills and enthusiasm into the team and ultimately improve the bottom line.

Getting started on an Apprenticeship

At the outset of the apprenticeship, we work with you and your employer to design an apprenticeship that will best suit your role. These apprenticeships usually take about two years to complete but again, we'll discuss this with you at the start.

Completing an apprenticeship has made me aware of the world of work. I am a much more confident person now as a result of meeting new people every day through my work.

Conor Reece, Intermediate Apprenticeship at PH Jones

I think that employing apprentices is supporting our business and that the productivity of our engineers goes up when Conor works with them.

George Smith, Conor's supervisor at PH Jones

Applying for an Apprenticeship

Apprentices need to be employed in a relevant role for at least 30 hours a week and be at least 16 years old. You may already have an employer who wants you to complete an apprenticeship with them but if you don't, get in touch and we'll see if we can help. Acceptance will be subject to initial assessment and interview to ensure that the apprenticeship is suitable for your vocational aptitude and transferable skills levels.

How Apprenticeships benefit businesses:

- Apprentices bring new skills and enthusiasm into your team
- Your apprentice will be trained by industry experts
- Apprenticeships can be tailored to meet your industry needs
- We can help you recruit apprentices
- 100% Government contribution for training a 16 – 18 year old in a small business (less than 50 employees)
- Incentive grant of £1000 to support the additional costs of employing a young apprentice
