

Maintenance Operations

Diploma Level 2

STUDY MODE
Full time

LOCATION
Moulton

LEVEL
Level 2

START DATE
Sep 2021

DURATION
1 year

If your ambition is to gain a role within the construction industry, this course will set you on the right path. There has never been a better time to join the construction industry as we enter a huge exciting regeneration period for cities, railways and houses. In the UK, the construction industry employs over two million people and our Level 2 Diploma in Maintenance Operations will develop your skills preparing you for your career within this sector.

Maintenance Operations students have access to an exciting range of specialist resources at the College. You will use our unique workshops tailored to carpentry, brickwork and plumbing equipped with state-of-the-art tools and facilities to develop a range of skills in all these areas.

Your study will be supplemented with hands-on experience and an extensive enrichment programme including industry visits. As part of your course you will have the opportunity to undertake commercial experience and apprenticeships in Building Maintenance Operations, where you will learn and develop practical skills that will be vital for your future in maintenance operations.

What you'll learn

This course includes an introduction to core areas of the construction industry including brickwork, carpentry and plumbing. Further units will explore modern technologies and renewable energies alongside wider industry skills.

What will this course cost me?

Hi-Vis and Work Safety Boots are required to undertake this course. All of our equipment is supplied by Baca.

A typical week

This is a full time course taking place on three days per week from 9am - 4:30pm. There will be a mix of practical and theoretical work which are split into 1 hour - 1.45 hour lessons. You will have regular breaks including a break for lunch.

How will I be assessed?

Vocational and professional qualifications are taught through college based theory and practical lessons with further learning and understanding developed via directed self-study. Assessment consists of internally set coursework and assignments, although some professional and vocational qualifications may require the achievement of externally set assessments.

Where can it lead to?

Students generally progress onto a higher level of Maintenance Operations course, move into a job with training (such as an apprenticeship) or move into full time employment.

Entry requirements

Completion of Level 1 Diploma in Multi-Trade Occupations or equivalent
