

Electrical Installation

Level 3

STUDY MODE
Part time

LOCATION
Moulton

LEVEL
Level 3

START DATE
14 September 2026

DURATION
1 year

The City & Guilds 2366 course is the ideal progression point for adults looking to build a solid foundation in the electrical industry. It offers a clear, supportive introduction to essential electrical principles, safety practices, and hands-on installation skills, making it perfect for beginners or those returning to study. You will gain practical experience with real equipment, guided by knowledgeable tutors who break down complex topics into manageable steps. This qualification is widely recognised by employers and provides a valuable pathway into apprenticeships, further City & Guilds training, and long-term career opportunities within the electrical trade. It's a confident first step toward a rewarding and in-demand profession.

What will I learn on the course?

You will acquire a broad range of knowledge, skills and understanding of electrical installation including: - Scientific principles - Inspection, testing and commissioning - Fault finding and diagnosis - Electrical design practices and procedures - Organising and overseeing electrical work activities in buildings - Requirements for electrical installations to BS 7671

What does a typical week look like?

The mode of study will either be two evenings per week, 6pm - 9pm or one full day per week.

How will I be assessed?

Assessment will take place through a mix of online, written and practical assessments.

Where can it lead to?

This qualification will support progression onto an installation and maintenance electrician

apprenticeship. After full completion of an apprenticeship you could be employed as an installation electrician, maintenance electrician or electrician.

What are the entry requirements for this course?

You will need a Level 2 Diploma or Technical Diploma in Electrical Installation or equivalent to be able to study this course.
