

The Supported Internship programme is designed for young people between 16-24 who have Learning Difference and are in receipt of an Education Health Care Plan. Supported Interns have access to an exciting range of specialist resources at the College.

Preparing you for adulthood, these courses will teach you practical skills in your chosen subject. You will also have the opportunity to undertake a work placement, allowing you to develop invaluable industry skills.

You will gain employability skills to progress in your career. Travel training will enable you to travel independently to your place of work. Maths and English skills relevant to your career will be incorporated.

What does a typical week look like?

You will spend one day in college where you will study Employability and work related information alongside English and Maths skills and learning to travel independently.

You will then spend two days in the work place where you will receive support from Job Coaches to help you learn and master the job you are doing.

How will I be assessed?

Your written work will receive verbal and written feedback from your lecturer and Job coaches.

Where can it lead to?

The aim of this course is to enable you to secure paid or voluntary work.

What are the entry requirements for this course?

Education Health and Care Plan required.

How will this course help me to understand environmental and sustainability issues?

Supported Internship Page 1 of 2

During your internship you will be focusing on utilising public transport or cycling to your work placement as an alternative to driving or getting a lift. This will help reduce fossil fuel use and the amount of carbon dioxide that is used.
